

Alex Devero

Senior Frontend Engineer (React/Next.js) · Frontend Tech Lead

Prague, Czech Republic (CET) · EU & remote | deveroalex@gmail.com · alexdevero.com · github.com/alexdevero · linkedin.com/in/alexdevero

SUMMARY

Frontend Tech Lead who builds like a founder. 10+ years building React, Next.js, and TypeScript applications. Co-founded Persoo (acquired by Luigi's Box in 2024) and was an early engineer at Supernova, the first Czech startup accepted into Y Combinator (2019). I lead frontends with an owner's product judgment — architecture that holds up as products grow.

EXPERIENCE

Full-stack Developer 2023 – Present

CDN77 — Prague

- Build web apps in React, Next.js, TypeScript, and Tailwind CSS on a Node.js REST/GraphQL backend.
- Lead a custom design-system migration and refactor legacy code for maintainability and performance.
- Establish a React/Next.js testing culture and improve overall code quality and delivery velocity.

Front-end & React Developer 2021 – 2023

Digitoo — Prague

- Migrated a React MVP to a server-rendered Next.js platform; replaced Material-UI with Tailwind CSS.
- Built a reusable component library; shipped 7 major features and enabled onboarding of 40+ clients.
- Set frontend architecture direction and mentored junior developers.

Frontend Developer to Co-Founder 2019 – 2021

Persoo — Prague

- Rebuilt the search widget and recommendation carousels in modern JavaScript; removed jQuery.
- Led the frontend team, formalised implementation practices, and mentored developers.
- Became an officially registered co-founder and helped shape product strategy. (Persoo was acquired by Luigi's Box in 2024.)

Front-end & React Developer 2017 – 2019

Supernova — Prague

- Built the React/TypeScript MVP from scratch (design-to-code from Sketch files).
- Architected a scalable frontend structure and worked with the CEO on product direction.
- Supernova became the first Czech startup accepted into Y Combinator (2019).

Front-end Developer 2016 – 2017

StartMonday — Prague

- Built web applications in TypeScript as part of an early-stage startup team.
